Dear Hiring Team,

I am writing to express my interest in the Software Developer role, as advertised on Linkdin. As a 2025 B.E. Computer Science graduate with hands-on experience in web development, MERN stack, and data analysis, I am confident that my skills and passion for technology align well with the requirements of this role.

During my internships and projects, I have gained practical experience across multiple areas:

- MERN Development & DSA Training: At Gracious EdTech, I worked extensively with MongoDB, Express.js, React.js, Node.js, SQL, and JavaScript, while sharpening my data structures and algorithm skills in Java.
- Web Development Internship (Octanet Pvt. Ltd.): Developed responsive web pages using HTML, CSS, and JavaScript, and implemented backend functionality using Node.js.
- Data Analysis Internship (Shiash Info Solutions): Hands-on experience with NumPy, Pandas, and EDA, building strong foundations in data-driven problem solving.

Key Projects: 1. Emotch-Glass Device for Visually Impaired: Developed an assistive device using ML models integrated with ESP32 Arduino hardware, OpenCV, and TensorFlow to interpret emotions from visual cues. 2. Tripanian: Designed a social platform integrating MERN stack to allow users to share trip experiences, including a recommendation system. 3. Forum – Career Site: Built a full-stack career guidance platform with React.js frontend, Node.js backend, and MongoDB database, implementing features like authentication, job listings, and user interactions.

I am highly motivated by emerging technologies and enjoy learning and applying the latest in AI, web development, and software solutions. I am precise, dedicated, and driven by the belief that "desire is the only limit," meaning there's always more to achieve if we push beyond self-imposed boundaries.

I would be thrilled to contribute my technical skills and passion for development to Company. Please find my resume attached for your consideration, and I would welcome the opportunity to discuss how I can add value to your team.

Thank you for your time and consideration.

Best regards,

Sathish Elayapillai

Madhapur, Hyderabad
